INTRODUCTION GUIDE

COMPREHENSIVE CATALOGUE OF VODACOME RECHARGE VOUCHERS - RED

Over the recent years ATA has been reporting on these vouchers as they surfaced within the market.

It is not easy to find these vouchers and during September 2014 Derik Ras and Warwick got together to try reconcile their collections and put together a reference for recording purposes.

These vouchers are divided into the following categories:-

	Rand value description	*8 x Naming description*
		Talk More
1	R25 - R5 x Five voucher	Say Hello
2	R29 Voucher	Start a Conversation
3	R55 Voucher	Stay in Touch
4	R60 - R12 x Five Voucher	Keep Chatting
5	R110 Voucher	Lets Chat
6	R275 Voucher	Keep Connected
		Catch up Time

Due to the randomness of the supply of these vouchers, unfortunately the Naming description was not kept the same per monetary value description.

For reference purposes the way this special catalogued has been put together is as follows:-

eg:

Talk More	V25.1.1	Issued: Oct 2011. TAT 178 Pg 2 (BBC 18mm x 4mm)
1	2	3

1 Naming Description

2 Version control number

3 Description of the voucher -

> *3.1* Issued: Oct 2011 - means when it was first found in the market
>
> *3.2* TAT 178 Pg 2 means - in which Newsletter and what page the voucher was first made known to members
>
> *3.3* (BBC 18mm x 4mm) means - the differentiating feature of the particular voucher in this case being the BBC - Bottom Bar Code size of 18mm x 4mm
>
> *3.4* If a number has an additional figure (ie: V25.1.1.**"2"**) - Then this just means that the voucher is very similar to V25.1.1 and only differs slightly (Usually BC size) thus does not warrant a full number change.

Now taking the above into consideration the following pages will be divided up into the respective rand value categories.

Many of these vouchers will be referenced for the first time in this catalogue and have been defaulted to being issued in September 2014 however they could have been in the market a lot earlier.

There are further references made to distinguish the position of the bar code number in relation to the bar code. Examples are:

NEW QR BAR CODE

15761ABE0434

1 BCNBTM

2 BCNSDE

BCNBTM	Bar code number (BCN) bottom (BTM) = BCNBTM
BCNSDE	Bar code number (BCN) side (SDE) = BCNSDE
