

GROUP PROFILE:

Sun International

The Sun International Group has a diverse portfolio of assets including world class five star hotels, modern and well located casinos, and some of the world's premier resorts. Built on the original success of the Sun City Resort over three decades ago, today our destinations offer experiential luxury, enduring quality and incredible adventure, supported by an authentic dedication to personal service. Our real competitive advantage stems from the fact that we have a compelling and global competence in both the development and operation of casinos, hotels and resorts – and at the same time we are extremely comfortable operating in emerging markets. Our brand is strong in Africa and we have a solid presence in southern Africa with properties situated in 5 of our neighbouring countries and the Federal Palace in Nigeria. Our entry into Latin America began in Chile and has been a success story for the Group, giving us the track record and confidence to look for more opportunities that offer gaming opportunities in the region. We have made significant progress in Panama and Colombia with casinos expected to open during the course of 2014. Our approach has been to differentiate our hotels, resorts and casinos in architecture, service, experience, location and the mix of entertainment and activities. Being extraordinary and generating a sense of wonder is part of our DNA. We've created some of the world's most iconic hotels ranging from The Royal Livingstone Hotel at Victoria Falls, to The Palace of the Lost City at Sun City and The Table Bay Hotel in Cape Town. We place a strong emphasis on being responsible corporate citizens through our commitment to developing the economy, communities and the environment.

Sun International is a resort hotel chain and casino destination from South Africa created by Sol Kerzner, probably best known for its Sun City Resort near Rustenburg in the North West Province.

Sun International traces its roots back to 1969, when the Southern Sun Hotel Company was created when South African Breweries and Sol Kerzner joined forces.

In 1983, South African Breweries splits its hotel interests into two. Sun International, headed by Sol Kerzner, retained all of the casino hotels located in the areas that South Africa had designated as "independent homelands" and had Southern Sun as a 20% stakeholder. Southern Sun retained the company's other hotels in South Africa.

After the end of Apartheid in South Africa in the early 1990s, the so-called homelands were re-integrated into the new South Africa. Southern Sun developed its own gaming resorts and began to compete increasingly with Sun International. In 2000, Southern Sun sold its stake in Sun International to Kersaf.

Today, the Sun International brand operations include resorts, luxury hotel products, and casinos, across 27 destinations in 8 countries.
