

CASINO CARD NAME:**Generic - Sun International****CASINO PROFILE:****Sun International**

Sun International has been making winners for over 30 years and still, every win is

special. We make sure you're never bored and innovation is our watchword so there are always more ways for you to play, more ways for you to win and even more gambling thrills to be had.

The tables are your greens, the cards your clubs and the ace your

hole-in-one. This is your game of tactics, strategy and hard-hitting power. From poker and blackjack to the spin of roulette, the Tables are alive with tension, speculation and promise.

Sun International Limited was incorporated in South Africa on 11 July 1967. Following a scheme of arrangement Kersaf Investments Limited ("Kersaf") came into being on 28 June 1984, subsequently listing on the Johannesburg Stock Exchange in the same year. This enabled Kersaf to acquire an interest in the Sun International Group, which had been established on 1 October 1983.

Kersaf's original interests were in shipping, leisure, cinemas and restaurants. Over the next 20 years the group's hotel and casino interests grew significantly under the Sun International brand. During this time Kersaf gradually disposed of its other investments and acquired the minority interests of its then listed subsidiary, Sun International (South Africa) Limited, culminating in Kersaf being renamed Sun International Limited (SIL) on 6 August 2004.

With a market capitalisation of approximately US\$1.4-billion, Sun International is the leading casino operator in the southern hemisphere and enjoys a 42.5% share of the South African casino market. As one of Africa's most significant tourism and leisure groups, Sun International owns and operates internationally acclaimed tourism resorts, luxury hotels and urban entertainment operations in eight countries, including South Africa, Zambia, Nigeria, Botswana, Namibia, Lesotho, Swaziland and Chile. More than half of this portfolio has been developed in the last 15 years, with new projects having been launched in West Africa South America.
